

ELASTOSIL® E4

RTV-1 SILICONE RUBBER / ADHESIVE

Product description

ELASTOSIL® E4 is a non-slump one-component silicone rubber, which cures at room temperature under the influence of atmospheric moisture.

Special features

- acetic acid-curing system
- non-slump
- cured rubber with low Shore A hardness
- excellent primerless adhesion to many substrates

Application

- multipurpose glue

Processing

ELASTOSIL® E4 shows good primerless adhesion to many substrates. We recommend running preliminary tests to optimize conditions for the particular application.

Storage

The 'Best use before end' date of each batch is shown on the product label.

Storage beyond the date specified on the label does not necessarily mean that the product is no longer usable. In this case however, the properties required for the intended use must be checked for quality assurance reasons.

Safety notes

During vulcanization of ELASTOSIL® E4, a total of 3% by weight of acetic acid is split off. These vapours should not be inhaled for long periods or in high concentration. Work areas should therefore be well ventilated. Contact of unvulcanized silicone rubber with eyes and mucous membranes must be avoided as this would cause irritation. However if it does happen, rinse the affected area thoroughly with water.

Comprehensive instructions are given in the corresponding Material Safety Data Sheets. They are available on request from WACKER subsidiaries or may be printed via WACKER web site <http://www.wacker.com>.

Product data

Typical general characteristics	Inspection Method	Value
Product data (uncured)		
Color		transparent
Density at 20 °C	DIN 53217	1,01 g/cm ³
Viscosity, dynamic at 23 °C		non-slump
Skin forming time at 23 °C / 50 % r.h.		20 - 25 min
Curing time, 23 °C, 50 % RH		12 h/mm
Product data (cured)		
Color		transparent
Density at 23 °C in water	DIN EN ISO 1183-1 / ISO 2781	1,02 g/cm ³
Hardness Shore A	DIN 53 505 / ISO 868	15
Elongation at break	DIN 53504 S1 / ISO 37	750 %
Tensile strength	DIN 53504 S1 / ISO 37	2,00 N/mm ²
Tear strength	ASTM D 624	7,3 N/mm

Curing conditions: 2 mm, 14 days storage at 23 °C and 50 % RH.

These figures are only intended as a guide and should not be used in preparing specifications.
